

MANY KILLED IN WESTERN WRECK

General Villa Is Reported Slain

UNCONFIRMED RUMOR IS TOLD BY MEXICAN

El Paso, Texas, Oct. 16.—A report that General Francisco Villa, leader of the Northern faction in Mexico, has been killed, was brought to El Paso early today by a Mexican who just arrived from Casas Grandes.

According to the story, Villa was shot in a fight with disaffected troops out in the Villa area yesterday.

Another report brought by an American passenger said that on Friday Villa was being tried by a court martial and that the trial was still in progress when the train left Casas Grandes.

The Mexican who reported Villa's death declared that the trouble arose when the chief called upon one of his comrades for a foreign loan. The man was ordered shot, the report continues, when he refused to accede to Villa's demands. Division in the army resulting, it was said, approximately seven thousand of the nine thousand troops revolting. In a fight that followed the Mexican said Villa suffered mortal wounds.

The Villa garrison at Juarez last night was said to be greatly disturbed. The exact nature of conditions there could not be learned as residents had feared to cross the international bridge. A crowd of persons gathered at the river late last night but little information filtered through.

MILITIA WILL GUARD PRIMARY MEETINGS

Charleston, S. C., Oct. 16.—Militia guard was provided today by order of Governor Manning for the meeting of the City Democratic Executive Committee, which was held here yesterday by a shooting in which one man was killed and four were injured. The committee was attempting to count the ballots of the recent Democratic primary to determine whether Mayor John P. Grace or his opponent had been nominated for mayor when the shooting was begun by an unknown person in the committee room.

Police, deputy sheriffs and a local militia company soon dispersed the crowd, both in the building and on the streets outside, and prevented further disorder. Governor Manning then ordered militiamen to guard the committee when it resumed its task today.

Within half an hour after yesterday's shooting the Washington Light Infantry, with fixed bayonets, cleared the street outside the building where the shooting occurred.

BIG EASTERN ELEVENS READY FOR CONTESTS

Chicago, Oct. 16.—Football elections of the Big Nine clashed today in the first test of the championship season. Losers will be eliminated as contenders for the 1916 title. The important games brought together the Chicago Bears at Chicago; Illinois at Ohio State at Columbus; Wisconsin at Northwestern at Evanston; Minnesota at Michigan at Ann Arbor; Michigan at East Lansing; Michigan at Washington at Crawfordsville; Michigan at Kenyon at Cincinnati; and Union at Illinois at Urbana.

Of greatest interest among the gridiron contests in the afternoon is the game at between Harvard and

WAR BULLETINS

Petrograd, Oct. 16. (Via London)—Russia regards herself in a state of war with Bulgaria from the moment the latter country attacked Serbia, according to a statement issued today by the foreign office here. The formal declaration of war is awaiting the conclusion of an exchange of telegrams between Russia and her allies.

Amsterdam, (via London) Oct. 16.—According to a dispatch from Athens to the Cologne Gazette, the ministers of Russia and Italy are preparing to leave Greece. The families of the diplomats, the message adds, probably will leave the Grecian capital today on a warship bound for Italy.

Berlin, Oct. 16. (Via London)—Further progress of the armies of Field Marshal von Mackensen invading Serbia is reported by the war office today. The storming of positions south of Semendria and east of Pozarevac is announced.

Bulgarian troops are progressing also in their attack and have taken the eastern forts of Zajecar.

Berlin, Oct. 16. (Via London)—An attempt by the French to capture a German position east of Auberive, in the Champagne, was repulsed with a loss to the French of more than 600 men in prisoners and three machine guns, Germany army headquarters announced today. Attacks near Souain, Lemesnil and Leintrey also failed.

NEGRO GIVEN DEATH PENALTY FOR ASSAULT

Newport, Ky., Oct. 16.—After deliberating one hour and twenty-five minutes, a jury in the Campbell county court returned a verdict early today, finding Harry Garrison, 18 years old, a negro, guilty of having attacked Mrs. Lonella Crowder, white, and fixed the penalty at death. Garrison was sentenced to die in the electric chair at the Eddyville penitentiary.

Mrs. Crowder, who lives at Oneonta, near the eastern line of Campbell county, was attacked at her home on July 28 last. When the foreman of the jury reported the verdict, Mrs. Crowder, who was in the court room, exclaimed: "Justice has been done."

This is the first time that the death penalty has been obtained in Campbell county since Scott Jackson and Alonzo Walling, both white, the murderers of Pearl Bryan, whose headless body was found near Newport, were hung in the jail here on March 8, 1897.

ILLINOIS AND O. S. U. WILL BATTLE TODAY

Columbus, Oct. 16.—Illinois and Ohio State will meet on Ohio field today in their first Western Conference football game of the season. Illinois will enter the contest handicapped by injuries, according to Coach Zuppke.

He said there was little hope that Pogue, the fleet half back, would get into the game and neither Quarterback Clark nor End Squier was expected to start. With

RETIRED REAR ADMIRAL TO BE COURT MARTIALED

Washington, Oct. 16.—Rear Admiral N. Little, retired, today faced trial by court martial on charges involving neglect and careless methods in the conduct of his duties while inspector of machinery at the Fore River Shipbuilding company, Quincy, Mass., in connection with the construction of the submarine U. S. S. K-2. He will be tried in Boston. In explaining his reason for action against an officer who has been retired after attaining the highest rank on charges relating to duties performed prior to retirement, the settlement indicated the department's determination to have the

TWO COACHES CRASH DOWN INTO CREEK

Randolph, Kas., Oct. 16.—Four persons are known to be dead and nine are missing as the result of the wrecking of a Union Pacific motor train which early today plunged through a bridge into Faney Creek near here. The train consisted of a passenger coach and combination baggage and mail car.

About 15 feet or more toward end of the passenger car was buried in flood waters and mud.

Four of the estimated 75 passengers are known to be dead and nine other bodies are said to be lodged in the buried end of the car. All attempts to rescue the bodies have failed and the correct number will probably not be known until the rescuing crew can reach the scene and lift the car.

Faney Creek, ordinarily a "dry run" was swollen into a torrent by heavy rains yesterday.

A majority of the passengers were young women school teachers, who had gathered from the Southern part of Riley county to take the motor train in a party to a teachers' meeting to have been held here today. Several of the young women are unaccounted for.

Kansas City, Mo., Oct. 16.—At least fifteen persons were killed and many were injured today when motor train No. 579 on the Union Pacific Railway plunged down an embankment near Randolph, Kas. A washout caused the accident. One of the cars on the train was submerged in Faney Creek, a local stream and most of the dead were drowned.

This information came to the Union Pacific offices in Kansas City today. The train which carried two cars, left Manhattan early this morning for Marysville. It carried about 75 passengers. A three inch rain fell in the vicinity yesterday. The accident occurred near the approach to the bridge over Faney Creek, where the track had been washed away. Both cars plunged down the high embankment, the first car burying itself deep in the stream below.

Railroad officials said the train usually carried many traveling men. Today it had as passengers when it left Manhattan a delegation of young women school teachers en route to the Riley county teachers convention which was to have opened at Randolph today.

The accident occurred at 7:50 o'clock this morning. Dr. Louis Atwood, a Topeka physician is among those killed.

Des Moines, Iowa, Oct. 16.—Reports received by the Union Pacific officials here said that one car on the Union Pacific motor train which was wrecked near Randolph, Kansas, early today, contained seventy-two passengers, sixty of whom were drowned when the car went through a bridge.

Columbus, Oct. 16.—A fight in the supreme court between Attorney General Turner and State Auditor Donahay was in prospect today when Turner announced he would file a mandamus suit Monday to compel Donahay to pay salaries of

HERE'S A REPTILE 47 FEET LONG

New York, Oct. 16.—A specimen of the Tyrannosaurus, 47 feet long and 18 1/2 feet high, was placed on exhibition today at the American museum of natural history. It was unearthed on Big Dry Creek, in the Montana Bad Lands, by Barnum Brown, a fossil hunter, who has discovered several specimens of the Dinosaur. The Tyrannosaurus is a giant reptile distinctly related to lizards, but with hind legs fashioned like those of birds, and its gigantic head, dagger-like teeth and sharp claws show that it was carnivorous. It roamed through the great basins of the West 3,000,000 years ago.

Marjorie Stevens, who has been very ill at her home on Bond street, is improving steadily.

Mrs. Leonard M. Thomas, considered one of the most beautiful women in America, will lead the giant suffrage parade in New York city on Oct. 24.

MILITARY FORCE OF 665,000 PLANNED BY UNITED STATES

Washington, Oct. 16.—Provision for a military force of 665,000 men and construction by 1920 of sixteen capital ships—ten dreadnaughts and six battle cruisers—are included in plans for National Defense as approved by President Wilson, and which had virtually reached completion today.

This great military force would be provided for by the creation of a continental army of 400,000, an increase in the regular army to 110,000 men and a militia strength of 125,000 men.

The program for the navy provides for the construction during the first year of a five year period of two dreadnaughts, two battle cruisers, twenty-five submarines, five sea-going submarines, twelve destroyers, and provides an increase of \$3,000 in personnel and an increase of 250 in the naval academy student body. At the end of five years it is proposed to add to the navy, in addition to the sixteen capital ships, more than seventy submarines, fifty destroyers, ten scout cruisers and the necessary auxiliaries. The total cost would be \$500,000,000.

The defense plan calls for a total expenditure on the army and navy next year of approximately \$400,000,000. The army's annual appropriation would be increased by \$25,000,000 to provide for augmenting the regular army and the creation of a continental army.

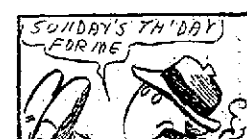

SHOT IS FIRED IN CLEVELAND STRIKE

Cleveland, Oct. 16.—The first shot in the strike of machinists here in their struggle for an eight hour day, was fired today by Andrew Janowski, 18, machinist, who refused to join the walkout of employees from the Warner and Swasey company plant. He was arrested. No one was hurt. The revolver was discharged while union pickets were trying to persuade Janowski to join the strike. He says he fired into the air when he came convinced that the pickets intended to do him bodily harm. The plant of the Bards and Oliver company, was practically shut down today as the result of the strike of 200 machinists there late yesterday. The men

WILL SEE WILSON

Stanford University, Calif., Oct. 16.—Dr. David Starr Jordan, chancellor of Stanford University, was to leave here today for Washington, as a delegate from the International Peace Congress to deliver an expression of the sentiment of the congress to President Wilson. The message entrusted to Dr. Jordan by the peace congress strongly urges that the United States try to bring about mediation of the warring European nations.

Buenos Ayres, Oct. 16.—Francisco Beltrame, while attempting to loop the loop in an aeroplane here fell to the ground and was killed.

MR. LAUDERMANN TELLS ABOUT CHARGES MADE AGAINST HIM

Mr. F. D. Laudermann has requested The Times to publish the following card explanatory of his side of the recent controversy at the Ohio Federation of Labor convention, at Mansfield, mention of which was made in The Times during the past week:

The Portsmouth Daily Times:—Gentlemen: Owing to the limited information received by your paper relative to the action of the O. F. of L. convention on the Portsmouth delegation's protest of my seat at that assembly, I beg to ask the use of your valuable columns to give an explanation that is due the citizens of Portsmouth and most especially the members of the Trade Unionists. I desire to express my sincere thanks to my friends in the labor movement who so promptly attempted to aid me by sending telegrams conveying the truth to the convention, but which I am sorry to say were never read to the convention, and the personal telegram informing me that such telegrams had been sent did not reach me until Friday morning and the convention adjourned at noon, having spent the morning on election of officers and such business that offered no opportunity to again open up the Portsmouth protest case.

I was not exactly surprised to find a protest against my seat for I knew that there were some delegates from Portsmouth that would stop to any depth to cause more disorder in the labor movement, but I was more than surprised to find that all of Portsmouth's delegates with the exception of George Ditty, would be a party to such a deliberate lying accusation as the protest given here as presented to the convention:

"We, the undersigned accredited and properly seated delegates representing their respective local unions of Portsmouth, Ohio, hereby protest against the seating of Delegate F. D. Laudermann from Portsmouth, Ohio, on the grounds that he has proven himself a deceiver of our great Trades Union movement and through his influence and 'unseen' power over the men employed in the Norfolk and Western railroad shops in Portsmouth, has succeeded in getting the machinists, boilermakers and blacksmiths' unions to withdraw from the Portsmouth Central Labor Council. This man Laudermann is also advocating tactics and principles detrimental to the welfare of organized labor, and is openly waging a fight against the C. L. C. of Portsmouth, Ohio, and to win his point is using slanderous attack on delegates and officers of Central Labor Council."

"Signed: C. E. Hise, President C. L. C.; P. M. Burdick, Recording Secretary C. L. C.; Local Union No. 451 Plumbers; G. H. Click, Secretary-Treasurer C. L. C.; No. 455 Street Railway Employees; Harry Strong, Carpenters Union No. 437; Louis C. Herder, President Bartenders' Local No. 429; Fred Burkhardt, Plumbers' Union No. 577; Henry A. Kuhn, Brewery Workers' Local No. 140."

You will notice that seven delegates signed this protest and owing to the fact that they went to Mansfield Sunday, and I being delayed in starting, by a district

board meeting of machinists at Roanoke, Va., for four days previous to the convention I did not arrive in convention hall until almost noon Monday, which gave the seven delegates much time to poison the minds of the delegation.

I was not informed of the protest until the credential committee reported Tuesday, when they recommended that the convention decide the case of my seat. Naturally such accusations caused a very bitter opposition to allowing my seat and a motion to seat me lost by 126 against and 26 in favor. This action being contrary to constitution, whereas I had no chance of a hearing to offer my defense, caused a bitter fight that will long be remembered on the floor, and one that consumed the entire morning.

While I was alone in the start if only became necessary to insist on an investigation for the truth, and by pointing out to the delegates that while the delegates claim to represent the locals, it was a matter that had not been passed on or ordered by their respective locals or the Central body, but a personal trumped up job, and by explaining what interests were urging this fight, and the arguments of President Voll, and others in favor of a fair trial resulted in reconsideration of action, whereas I was unanimously seated and charges referred to grievance committee for investigation, which investigation would have furnished amusement to the trade unionists of Portsmouth to hear the biased and unintelligent remarks of members paid real money to represent them, and to think that I was asked if I made any dry speeches or offered or promised to do so. While Mr. Hise and his colleagues claim I am trying to organize the I. W. W. in Portsmouth and that I am an employee of the Manufacturers' Association, here is his part of the proof. He stated to the committee that in his business as street railway motorman he often comes in contact with Mr. Frank Bagges, secretary of the Manufacturers' Association, and that recently Mr. Bagges advised him that the labor movement of Portsmouth should get rid of the radical leaders and get more conservative men and that there was a move on foot to organize the I. W. W. by a terminal employee, also assuring Hise of his own friendship toward the A. F. of L.

Now let that sink in and notice he tried to instill in me suggestion of Mr. Bagges in whose employ they claim I am working.

Mr. Burdick stated that my influence is so great at the terminals that the machinists are afraid to protest my actions under fear of a \$50 fine or being discharged. They offered to the grievance committee a pile of letters as evidence, when read all pertained to the charges of Brewery Workers against A. A. Oakes, machinist for working in the dry movement. Not one letter that I heard of even mentioned my name. They admitted to the committee, or rather Henry Ott of Cincinnati who was present along with Mr. Abrahamson, of Portsmouth, both officers of the Labor Home Rule League, that they had been planning this protest for several weeks prior to the convention, having discussed the matter with Mr. Ott at that time when he was in Portsmouth, and at which time he advised them to be sure to have evidence of the facts and yet they failed to take action here in Portsmouth where the real truth could have been established on short notice, but depended on their individual ability in misrepresenting facts to get by at a body of men such as compose the O. F. of L.

However their efforts failed and the grievance committee exonerated me from the charges, but that did not wake them up yet, as they still claim that I am guilty but too shrewd to catch.

I will just call your attention to an oversight on the part of the person who framed this protest which is self convincing that some outsider framed it and the poor fish tried to obey orders. If you will again read the resolution as they signed it you will note that the guy who framed it started out all right by saying, "We, the undersigned," (naming me) and then a few lines further he forgot himself and wrote "their" respective local unions, while he should have

written "our" respective local unions, and which would have been "our" respective local union if their boss had not framed the deal.

The real truth of origin of this dirty deal may never be proven to everybody, but I feel the majority of the trade unionists of Portsmouth will begin to investigate the ability and honesty of those in whom they are trusting their union business, and I hope to insist on the most rigid investigation on my part to establish the real trouble in the labor movement of Portsmouth.

Many other slanderous accusations were made by those delegates against me and I have decided to consult legal advice and if the law permits every delegate will have a chance to renew his charges and accusations under oath.

It has been no secret that there is something radically wrong in the labor movement of Portsmouth in the past year and is no longer a question of why the Building Trades Locals have had so much trouble if they trust their business affairs to men of such type as those signing the protest in question.

Harry Strong stated at the hearing before the grievance committee that he had signed that paper only because the machinists had withdrawn from the C. L. C. Now think of a business agent with no more business ability than to attach his signature to such a slanderous paper with no other reasons than those offered by him.

I think it unnecessary to deny my connection with the withdrawing of boilermakers, blacksmiths and machinists from the Central body as the members of those organizations can best prove that themselves.

The only statement I wish to make is that if being a delegate as I was from the machinists, and reporting the truth of the actions of the Central body of late, considered a secession movement, then I am guilty, as I report exactly what I find regardless of who it hurts. The fact that it involved upon Mayor Frick to tell the officers of the Central body where the trade unionists stood on the one day rest in seven fight organized labor is making, when they asked for opening picture shows on Sunday, and that the Portsmouth Daily Times found it necessary in their editorial column to call their attention to political dividend activities and advise them of a more businesslike neutrality and its benefits together with the facts that the recent attack on A. A. Oakes and the request of his seat in the C. L. C. by the Brewery Workers and their friends, has been an insult to the intelligent members of the trade union movement and is bound to bear fruit; and if never before the members of the trade union movement have realized the depth to which some interests will stoop to avenge a dry vote, it should be plain and clear now, and the fact that only ten of the delegates, including myself, protested the endorsement of the wet resolution, it is by no means a comparison of sentiment, as many more delegates favor the elimination of the question from the labor movement and did not wish to arouse any more rivalry at the convention.

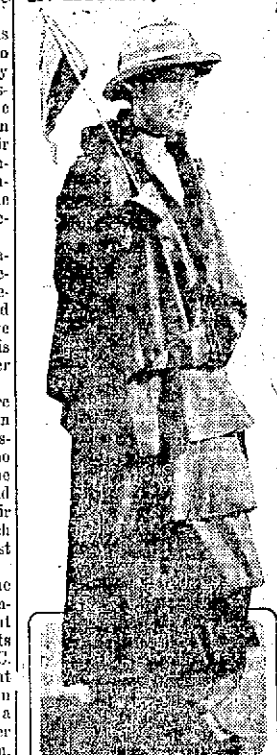

I am just as positive as could be if I had been in favor of the wet resolution I might have been one of the good fellows by the Portsmouth delegation and no protest would have been offered. But if I was not an inch further in the labor movement I will not sacrifice principle for favors and remain perfectly content to stay in the back ground with a good record to prove to every man of sobered words on the part of the enemy.

Again thanking my friends for their confidence, I am as ever,
F. D. LAUDERMANN.

EIGHT ARE HELD FOR MURDER

Chicago, Oct. 16.—Eight persons, five men and three women, were held under arrest today in connection with the murder of Harry Phillips, a jeweler, who was found shot to death in a west side apartment building last night.

Phillips' body was found on the fourth floor of the building, and the police believe it had been thrown down the steps from the fifth floor, on which he had bachelor apartments. Phillips owned a small neighborhood jewelry store.

Police are baffled as to the identity of the slayer, but believe a man committed the act. Some garments belonging to a woman were found in Phillips' apartments.

Estate Triple Effect Gas Heaters

The original and only genuine "Triple Effect." The best known, most successful but withal the most widely imitated natural gas heater in the world.

It works like a furnace because it is built like one. Heats not only by radiation and reflection but by powerful hot air circulation as well. Heats all the rooms of an average size house up stairs and down stairs just as effectively as a furnace and at approximately half the fuel cost. Made in three sizes.

Come in and inspect them.

The Estate Patented Ventilated Bake Oven The Gas Range That Bakes With Fresh Air

You sleep, work and eat where there is fresh air; the various places where your food is kept are well ventilated—why should not your food be baked or roasted in a continuous current of heated, sterilized fresh air?

The scientific construction of the Estate Patented Bake Oven makes fresh air baking possible.

Fresh air is taken from outside the stove. On its way to the oven, this air absorbs and is sterilized by the intense heat radiating from the oven plate-sheet which is wasted in other gas range construction.

This air never comes in contact with the gas flames. When it passes into the oven, it circulates evenly and uniformly throughout the oven—top, bottom and sides, and finally leaves the oven through the holes in the top oven plate. This is fresh air baking.

See our display and inspect these stoves.

Judge Is Worried Over Many Juvenile Delinquent Cases

Juvenile Judge Beatty is perplexed over the sudden increase in the cases of juvenile delinquency in this city during the past few weeks, and is face to face with the alternative of sending the offenders to the Boys' Industrial School at Lancaster or working out a reform through the medium of suspended sentences to that institution.

Four boys, John Allen, John Luther, William Simon, and Raley Atkins, all of this city, were brought before him Saturday morning, charged with the theft of a bicycle from in front of the Exhibit theatre Friday evening. The boys admitted the theft, but told the court that they took it just for a ride, and kept it so long that they were afraid to take it back. They said they left it in front of the U. S. Laundry office on Fourth street, but it could not be located there.

Judge Beatty gave them the alternative of recovering the wheel or paying for it, or going to the Lancaster school. The matter will be settled in juvenile court next Saturday morning. The owner of the wheel can not be located, their arrest being brought about by witnesses of the theft.

Benjamin Morano and Tony Tonello, two local youths of foreign descent, were brought before Judge Beatty by N. & W. Detective Robert Reno, who charged them with being habitual train riders. Judge Beatty dismissed them on suspended sentences to Lancaster.

ATTENTION PORTSMOUTH STEEL COMPANY EMPLOYEES

SKINNER TO FIGHT BRITISH BLOCKADE FROM WASHINGTON

Robert Skinner, American consul in London, will return to the United States late in October and give the war department at Washington a first hand report on trade conditions in England and on the methods used by Great Britain in diverting and holding up American trade. He will remain in Washington several months and act as special adviser on trade matters.

Loses Leg Under Wheels Of Train

Charles Mauck, a well known young farmer of Greenup in attempting to board a C. & O. train fell beneath the wheels of the train and his right foot was ground off. Dr. A. S. Brady of Greenup accompanied Mauck to the C. & O. hospital in Huntington, where the victim's leg was amputated four inches below the knee.

BONZO HALTS RUNAWAY TEAM

Major Joe Bonzo did the heroic and stopped a team of runaway horses in front of the city building Saturday noon. The steeds belonged to Albert Meyers, a farmer, and took fright from a passing street car on Second street, running up on the sidewalk in front of Dr. E. C. Jackson's home, and then headed back into the street, when Joe brought them to a stop.

Condition Serious

The condition of George R. Lockwood, local manager of the Western Union Telegraph company, was reported very serious Saturday.

BOY SCOUT NEWS

Rousing Meeting Held At Trinity
The Trinity Boy Scouts held a big meeting at Trinity M. E. church, Friday night, Scoutmaster Cary Williams presiding. New officers elected were: Murron Garrison, scout scribe and Geo. Wilson, sergeant at arms. Arrangements were made for a basketball team, troop library, and inter-patrol debating league.

NOTICE

There will be another meeting next Friday evening at Trinity church. All scouts should be present, those having not registered should do so at once.

Troop Will Attend Church

The Boy Scouts of Troop 8 will attend church, Sunday evening in a body at Grandview Christian church. All scouts are requested to meet at the church at 6:45.

Anniversary Day exercises will be held on Monday evening at Manly M. E. church where the parents of the scouts will be present.

Wykoff Arrested

Marshall Wykoff, of Garden, paid Portsmouth one of his periodic visits Friday, and a few hours later was found anchored against the First National bank building corner. He drew a \$5 fine in police court, Saturday for intoxication.

BIRTHS

Mr. and Mrs. A. Morton, Jr., of 1722 Baird avenue are the proud parents of a 12 pound son who arrived Saturday.

A fine little son was born Saturday morning to Mr. and Mrs. John Fisher, of Prospect street. Mr. Fisher is employed by the Selby Shoe company.

Caustic Rejoinder.

The seedy person applied to a wealthy citizen for help, and received the small sum of five cents. The giver remarked as he handed him the pittance, "Take it, you are welcome; our cars are always open to the distressed." "That may be," replied the recipient, "but never before in my life have I seen so small an opening for such large ears."

LOOKING FOR MACHINE

S. A. Spindler, of Dayton, is here looking for a Ford machine recently stolen from him. He is investigating the finding of a Ford car on the Buena Vista pike.

Juice Not Turned On

Electricity was not turned into the substation of the Ohio Valley Traction company at Franklin Furnace Friday, as expected. The "juice" will not be turned in for a day or two.

HOLCOMB CITY-

T. E. Thompson and son, Everett, were Cincinnati visitors Friday and Saturday.

Among those who attended the Korn Carnival last week were Miss Icy Copas, Howard White, Ida Moore, Mr. and Mrs. J. C. White and daughters, Bertha and Clara, T. E. Thompson and T. W. Thatcher.

Forest Hill and William B. Leslie have gone to Greenfield to seek employment.

Miss Sarah Potts, of Wamsleyville, is visiting her sister, Mrs. Icy Copas.

Mr. and Mrs. P. H. Reinhold and son, Wells, of Cherry Tree, are visiting Mr. and Mrs. A. R. Mullen.

Arch Moore and Alton Snook were home visitors, Sunday.

Rev. Upton filled his regular appointment at the M. E. church Sunday evening.

Farmers in this vicinity are busy sowing wheat.

Distinctly Northern Bird.
The world's migrating champion, according to Prof. Cooke, is the arctic tern. It nests as far north as land has been discovered or a bird can find anything stable on which to build its nest. A nest of this bird has been found within seven and one-half degrees of the North pole, and it contained a downy chick surrounded by a wall of new snow that had been scooped out of the nest by one of the parent birds.

NO SCORING IN THE FIRST HALF

There was a fine crowd at Millbrook Saturday afternoon to witness the football game between the Portsmouth and Huntington high school elevens.

Old time rivals on the gridiron these two elevens battled through the first half without either team scoring. These periods were featured by the splendid line plunging of the backfields of both elevens.

Everett Drew acted as referee, Robert Padan, umpire, Robert Weeks of this city and J. G. Graham of Huntington timekeepers and James Lynn head linesmen.

Work on the Lawson Run viaduct is progressing at a most satisfactory rate, report N. & W. officials.

Nine foundations are complete, six columns of reinforced concrete work are complete, the reinforced steel is in place for three of the big cross girders and forms are up for the three spans. Work on pouring concrete for the overhead part of the structure will begin the middle of this week.

HAD A MEETING IN THE WEST END

Harry Spears, of Hamilton, addressed a crowd of several hundred people on the Market street esplanade Saturday afternoon, making an unusually strong plea for voters to renounce Prohibition at the polls on November 2.

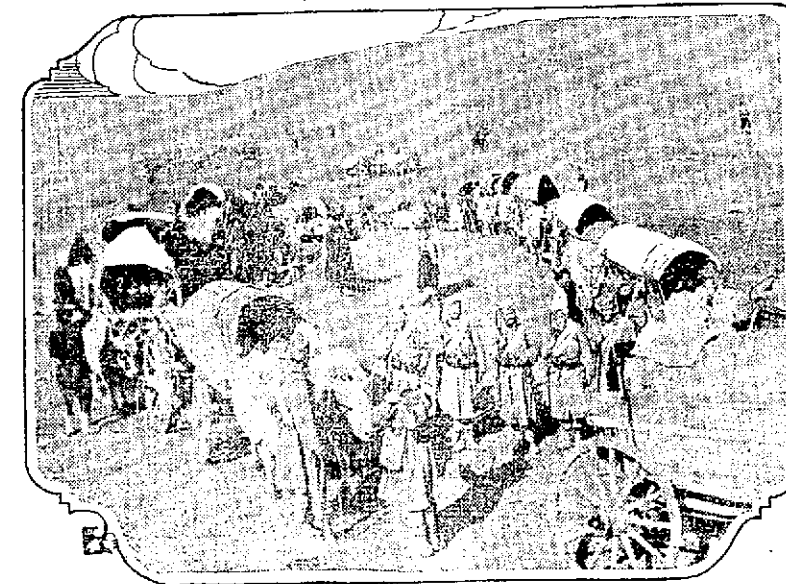

DIVORCE CASE CONTINUED

The divorce case of John W. Bartley against Mary Bartley, was heard in common pleas court Saturday afternoon before Judge Thomas, who continued the case until Monday morning for a decision. Bartley brought suit on the grounds of alleged adultery and extreme cruelty and the wife offered no contest. Blair and Kimble are the attorneys for the plaintiff, who testified that he was married to the defendant on July 11, 1914.

Why Harsh Words Hurt.

Most people seem to feel hard words more than hard deeds, and are more upset by insults than by actual injuries. What we do to an enemy in war is done from necessity, but the evil we say of him seems to arise from an excess of spite.—Plutarch.

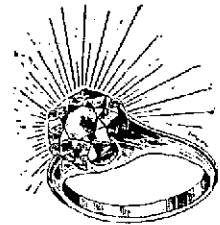

HOW BULGARIANS TRANSPORT THEIR AMMUNITION AND SUPPLIES

Bulgarian transport and its convoy of infantrymen near the Serbian border.

Owing to the lack of railroads, Bulgaria employs the rather ancient method of transporting ammunition and supplies shown in the picture. Transports like this have been very busy during the past few weeks moving munitions and other supplies to the Bulgarian frontier, where troops of Czar Ferdinand are in readiness to strike.

THE MARKETS

NEW YORK STOCKS

New York, Oct. 16.—The record of today's brief session was one of uneven declines followed by general recoveries at the end. Initial prices were more or less confusing and unsettled, but became more general later on selling of United States Steel and other potential issues. A number of the war shares were lower by one to two points and such railways as Louisville and Nashville, New Haven, Erie second preferred and Rock Island showed declines. The rally in the final dealings was led by Baldwin Locomotive and Bethlehem Steel, the latter rising 7 points from yesterday's close at the new record price of 484. The closing was steady. Bonds were firm.

Specialties, particularly war shares, made some upward progress at the outset of today's moderate trading, but the undertone was one of increasing caution. Baldwin Locomotive, Crucible Steel, American Steel foundries, General Electric and Westinghouse advanced from material fractions to two points, with slight gains in Pennsylvania, Atchafalaya and Ontario and Western. Rock Island added a point to yesterday's decline at 19 1/2 and New York Central was slightly lower.

FIGHTING PATROLMEN ARE FINED \$20 IN MAYOR FRICK'S COURT

Patrolmen Jacob Cooper and Dolbert Campbell, whose personal encounter Thursday evening resulted in their summary dismissal from the police force, were adjudged guilty in the mayor's court Saturday of the charge of fighting and were each fined \$20. The mayor took the opportunity for openly engaging in something which they as officers would not have tolerated if they had been on duty. The mayor said it was his regret that in the excitement attending the receipt of news concerning the fight that he had not ordered the sparkler started and the city service wagon sent after the belligerents but said that as soon as he received the word that he dispatched other officers to arrest them and had them brought in like any other ordinary offenders, that he declined to listen to one of them who wanted to interview him unless the other was also present and that he was not interested in the causes or the effects of the fight. He said he was there to protect the public which paid a certain sum of money towards protection of life and property and when the very ones engaged for such a purpose so far forget themselves as to break the very laws they themselves are sworn to enforce he could not countenance them for one moment and that is why he had ordered their prompt dismissal. He said that as far as he himself was concerned they would never serve another day in the capacity of police officers. **Pleaded "Tapping"** **Was Old Custom** Cooper was defended by Judge A. Z. Blair and both the lawyer and his client laid particular stress upon the claim that it has been customary for the past several years for certain police officers, Cooper among the number to tap each other on the badges or breastplates in a spirit of fun. Cooper pleaded that he held no grudge against Campbell or any officer, that for the past twenty-five years he had been fighting to control his own temper and was Dolbert Campbell, whose personal encounter Thursday evening resulted in their summary dismissal from the police force, were adjudged guilty in the mayor's court Saturday of the charge of fighting and were each fined \$20. NEW BOSTON

All are invited to attend the special services Sunday morning and evening at the Baptist church on Pine street. The evening service will be a union meeting of members of the Christian and Baptist churches, with Harry Edwards, of the Christian church, as the lecturer. A number of stereoscopic views will be shown with the lecture. All workmen are especially invited to attend the evening service. Cecil Anderson, daughter of Mr. and Mrs. Francis Anderson, of Galla pike, had two of her front teeth broken off Friday. While playing in the basement at school, she fell and broke the molars. Charles Dixon and Will Jenkins left Saturday morning in Dixon's automobile for Franklin Furnace, where they spent the day hunting squirrels. The romsters of Stanton avenue and Oak street schools have organized two football teams. The first game was played Friday, the Stanton avenue team winning by a score of 6 to 0. Alma Evelyn is the name given to the baby daughter who arrived at the home of Squire and Mrs. William McManes several days ago. The New Boston Warriors will back up against the Earlston football team Sunday at Millbrook park. Council will meet in semi-monthly session Monday evening. An ordinance will be passed to re-number houses. Mr. and Mrs. H. A. Reel are rejoicing over the arrival of a long-poled son, who came Friday. Lewis Hickman, of Galla street, has taken a job at the Norton Cunningham pool room. The Arrows will play the Shannock football team from the city Sunday afternoon at Millbrook park. A change has been made in the lineup. Mr. and Mrs. Tom Hodge moved from Harrisonville pike Friday to the Elkhoff property on East Grace street. The pie social given by the members of the Daughters of America after their regular meeting Friday evening was a huge success. Miss Gassie Holmes, a Stanton avenue school teacher, is thought to be suffering with typhoid fever. Will Bowers, of the city, is filling Miss Holmes' place. Henry Garey, of West Stanton avenue, who was knocked down by Adams Bros' bakery wagon recently, is convalescing. Hazel Maple, of West Stanton avenue, is recovering from a several days' illness. Miss Garnet Elkhoff, of Waverly, arrived Friday to spend a few days with her sister, Mrs. Eben Cooper. Mrs. E. C. Danann, of Kehoe, Ky., and Mrs. J. T. Taylor, of Warrick, Ky., returned to their homes after a short visit with Mrs. J. E. Taylor, of East Grace street. Lucy McCormick, school teacher, left Friday evening for her home in Garrison, Ky., to spend over Sunday with her parents. Mr. and Mrs. Arthur Drake entered G. R. Lockwood, manager of the local Western Union telegraph office, continues quite ill at his home, corner Fourth and Sinton streets. Harry Collis of the Chillicothe pike, who was taken alarmingly ill Thursday evening, was reported a little better today, although not out of danger. Mrs. Louis Ames, of 2119 Grant street, is ill with diphtheria.

NEW ST. MONICA S. S. WILL START SUNDAY

On tomorrow (Sunday) afternoon, at 2 o'clock, two Sisters of St. Francis, from St. Mary's church, will begin to teach regularly a Sunday school at New Boston. It will be held in the Thalian theatre. All Catholic children, both native and foreign born, from five to sixteen years of age, are expected to attend. Other children, whose parents wish them to learn the Catholic religion, are welcome to the school. Rt. Rev. Bishop Hartley has chosen the name of St. Monica for the mission church at New Boston.

Carnival Will Not Be Open Tonight

Rather than open their carnival only partly complete, the Ben H. Kline's Shows have postponed their opening in this city from this evening until next Monday evening. The carnival will show on the West End mill or under the auspices of the local Nest of Owls. Arrangements had been made for a big opening this evening, but several of the shows and concessions failed to arrive on time, and the management did not want to compromise its reputation by putting on only a part of its exhibition. The Ben H. Kline Shows are regarded as one of the best carnival companies on the road, and the management promises that their reputation will be sustained during their local engagement.

It Is A Long Road That Has No Ending

This philosophy is usually right. It stands good both in instances of politics and ill health, which latter is hereby attested to. "Nervous headaches are a thing of the past with me. I had almost reached the conclusion that there was no relief, when persuaded to try the medicine Tanlac. It has worked like a charm. Besides relieving me of nervous headaches, I no longer have that tired depressed feeling." The above statement was recently made by Mrs. Frank Helt, of 921 Seventh street, this city. Thousands of afflicted people are regaining health and vigor through the use of the "Master Medicine". The Fisher & Streich Pharmacy report the largest sale in their experience, and remarkable results evidenced by the expressions that are made by those taking Tanlac. Nervous headaches, severe stomach, liver and kidney troubles are often caused by catarrhal conditions. The constant conching up of mucus, sniffing, dropping from the nose, pains in the ears, and the pit of the stomach, side and kidney loss of appetite, no ambition, depression of spirits, and a constant contracting of colds are characteristic symptoms of catarrhal troubles from which so many thousands are suffering. Tanlac was designed to bring about an astonishing improvement in your spirits, appetite and general condition. Tanlac is called the "Master Medicine", and is on sale in Portsmouth at the Fisher & Streich Pharmacy, corner Sixth and Chillicothe sts. Adv.

Leg Is Broken

Austin Coriell, clay mine worker for the Carley Brick Company at Star Yards, had his left leg fractured, about six o'clock Friday evening. He was using a heavy "T" rail to pry loose some clay, when the rail slipped and fell on his leg. He was removed to Hempstead hospital, where the fracture was reduced. A Poor Recommendation Boozie sure is dangerous when the wet speakers who advocate its use are careful to state that they do not touch it themselves. Doctor, take your own medicine. C. M. MAY BUY HOUSE

It was learned Saturday that a prominent Chillicothe street merchant has opened negotiations for the purchase of Volney Thompson's fine home on Walker street, which is occupied by Mr. and Mrs. A. T. B. Somerville. If the deal is closed the consideration will be \$10,000.

Family Has Row

As a result of a family row in the city prison, Wadkins is charged with cutting Johnson Elias Johnson and his son-in-law with intent to kill, while Johnson Jerry Wadkins, at Second and takes trial on a charge of intoxication streets, with Johnson and disorderly conduct, and Wadkins and the latter's wife and Mrs. Vallie Wadkins faces as the participants, all three are disorderly charge.—Irononian.

Motorcycles Crash; One Rider Injured

Lowell Buckert of 1214 Findlay street, received a bad gash on his left jaw, a badly bruised knee and minor lacerations and bruises Saturday morning, when his motorcycle and one owned by Adolph Reinert came together at Eighth and Findlay streets. Both were on their right side of the street but an automobile kept the riders from seeing each other. The front forks of Buckert's machine were bent, but Reinert and machine escaped injury. Buckert was injured when he hit the sidewalk, both machines coming to a stop on the sidewalk.

Chalmers Six-40
\$1350
Seven Passenger
For Seven Passengers
Big, Roomy, Luxurious 7-Passenger Touring Car at Lowest Price at Which Chalmers Quality Has Ever Been Sold.

THIS is the new motor car at a lower price, with the wonderful new type of motor which is making it necessary for the Chalmers Company to quadruple its production plans for 1916. The first car of this model was delivered to the Sales Department by the factory on July 28th. When this advertisement was written (Aug. 11th) we were unable to ship more than one car in every four ordered. This was in spite of the fact that we were making four times as many cars as in the corresponding period a year ago. **The Season's Motor Sensation** Other manufacturers are announcing multiple cylinder and other new motor types to be available some time in the future. But the Chalmers Motor Company is selling daily NOW more than 100 cars equipped with the greatest proved type of motor in the world. This motor has been built into a bigger, roomier, more luxurious seven-passenger touring car which is sold at the lowest price ever placed on any Chalmers car. The motor is a valve-in-head with overhead camshaft—identically the same type as the motor which won all places and all records at the Indianapolis and Chicago Speedway races traveling at the remarkable speed of 90 to 100 miles per hour for 500 miles. **We Proved It In Europe** It is the most wonderful motor ever built. Practically all racers have been using it for two years. It is the type toward which all European stock design was tending when the war stopped production. Our engineers decided two years ago on this type of motor in collaboration with European engineers. Hence we found ourselves the first great motor car manufacturers in the world building this type of motor for the use of the public. That's why we have some big European orders to fill when we catch up with the American demand. **Glides Like Express Elevator** The valve-in-head motor has been proved by several American cars but none of them—until this car—has ever made the most of its opportunities by adding the overhead camshaft. The car gets away like a racer or it can creep along at a snail's pace. In either case you are conscious only of a motion that is velvety smooth like that of the high speed electric elevators in the Woolworth Tower. **Comfortable as a Rocking Chair** It is as comfortable as a rocker or a big leather library chair. And for the same reasons: the leather upholstered seats are deep and luxurious; the sides of the tonneau are built on the "arm chair" principle. The leg room was calculated for an Abraham Lincoln; the springs—wider, longer than any other car in its class. The wheel base is unstinted (124 inches) the wide U doors swing completely out of the way, the clutch clutches the transmission instead of the passengers. **Beautiful "Coach" Finish** In appearance it is an aristocrat—as it must be, for Chalmers owners make up the Blue Book of Motordom. Its lines are those of the masterpiece among Chalmers' great triumphs in design. Our \$50,000 machines for making Chalmers oval fenders still protect the exclusiveness of these fenders for Chalmers owners. The master touch of its beauty is in the wonderful "coach" finish which all owners of vehicles are taught to know as the last word in paint. We carefully prepare the body for finish by sand blasting. The colors are then laid on by skilled painters—artists who love their work. Chalmers bodies are neither sprayed, dipped nor baked. Exclusive methods inside the factory make exclusive appearance on the road—watch for those dark blue bodies with smart red wheels. **Made in Our Own Shops** Our cars are made in our own shops under the most exacting standards. A motor is not picked up here, a transmission there and another part somewhere else. As one dealer said who recently discontinued another fine and took on the Chalmers, "The only car that can possibly dominate the medium priced motor car field must be a manufactured product with quality as its back bone." "Quality First" is not only an advertising slogan; it is a Chalmers business principle. After some misgivings in the past about the practical money value of sticking to quality, the greatest business in our history is renewing our faith in this principle. **New Service to Owners** Every Chalmers dealer gives to every buyer of a Chalmers car a Service Coupon Book, each coupon good for a definite amount of service at any Chalmers dealer's anywhere. Each Chalmers owner is entitled to a membership card in the Chalmers Club commending him to the courtesies of Chalmers representatives everywhere, and to receive regularly without charge the Chalmers Clubman, a magazine devoted to the interests of Chalmers owners. Demonstrators of the 7-passenger Six-40 at \$1350 are now in the hands of Chalmers dealers. Do you not owe it to yourself to at least examine a car about which a reputable manufacturer has made such remarkable claims as we have for this one?

Spring Water Is O. K.

Dr. W. W. Smith, city health officer, has just received reports from the laboratory of the state board of health on samples of the Kinney Lane spring water recently submitted for analysis.

Following is a copy of the letter received:

Columbus, O., Oct. 14, 1915.
Dr. W. W. Smith,
Health Officer,
Portsmouth, Ohio.

Dear Doctor:
The sample No. 17,797, collected on October 6th, 1915, from spring located on Kinney's Lane, is of satisfactory sanitary quality and safe for domestic and drinking purposes at the time of sampling. However, the location of the spring in a rapidly growing section of your city (as indicated in your letter) makes it advisable to submit samples occasionally for examination, in order to secure a water supply of unquestionable sanitary quality.

Very truly yours,
E. F. McCampbell,
Secretary and Executive Officer.

Kitts Estate

Elms Kitts, widower of the late Fannie Kitts, of the French Grant section, was appointed in probate court, Saturday morning, administrator of the estate of his wife. He furnished bond in the sum of \$10,000. The estate, consisting of 98.63 acres in the French Grant settlement is valued at \$25,000. Immediately upon his appointment, Mr. Kitts, through his attorneys, Andrews and Irish, of Ironton, filed a petition in probate court, asking that his dower interest be ascertained and allowed to him in money, and that he be authorized to sell the property. Attorney Mark A. Crawford of this city, was appointed by Judge Beatty as guardian ad litem of the four minor heirs, William Kitts, Mary Evelyn Kitts, Annie Kitts and Mayflower Kitts. He filed his answer immediately, asking that their rights be protected by the court.

Detroit Electric \$1975 to \$2275

—the practical automobile

All things considered the Detroit Electric will give you continuous service of a highly satisfactory character for a longer period at less cost than any other automobile of similar size and power. That is a strong claim—but it is true. You can use the Detroit Electric 365 days every year with perfect comfort. Secondly—every member of the family can drive it easily and safely. Third—the Detroit Electric rarely needs any attention. Fourth—the Detroit Electric is silent and clean always. Fifth—the Detroit Electric is extremely economical. For actual proof of what we say let us give you a demonstration.

Prices range from \$1975 to \$2275

FLYING SQUADRON MAY COMPRISE 100 MACHINES

Flying the banners of the Scioto County Dry Federation between 75 and 100 automobiles will leave the government square on Gallia street between 8 and 8:30 o'clock Sunday morning on a trip through Scioto county.

It will be known as a flying squadron and C. M. Weyand, secretary of the Scioto County Dry Federation, stated today that possibly 100 machines would be in line.

The first stop will be at Bucua Vista. This meeting will begin at 10 o'clock. The last meeting will be held at Bousier's Run at 4 p. m.

The squadron will visit McGaw, Pond Run, Friendship, Carey's Run, McDermott, Mt. Joy, Pond Creek, Lombardsville, Otway, Rarden, Latayette, Star Yard, Wheelersburg, Sciotoville, Franklin Furnace, Haverhill, Ohio Furnace, Powellsville, Effort, Bloom Switch, Miller's Run, Lucasville, Harrisonville and other points in the county.

WARNED BY MAYOR

Ollie Atkins and Norman Whitt, who were arrested on complaint of Russell Meyers for alleged attacking him Friday night, were fined \$10 and costs each in police court, Saturday. The mayor also promised them six months in the workhouse if they ever disturbed a religious meeting at the Boundary Street church again. Meyers denied that he furnished a knife as claimed by the others.

PETIT JURY WEDNESDAY

The petit jury has been ordered to report for duty next Wednesday afternoon, at one o'clock. Several cases will be disposed of during the latter part of next week.

Countercharges Win In The Mayor's Court

William Isham, whom Miss Martha Sexton charged with assault, unexpectedly turned the tables upon her when the case came up for hearing in police court Saturday.

Isham, who the young woman said was "chief cook and bottle washer" at Fid's saloon, was said to have attempted to criminally assault her at the home of his wife, from whom he is separated, and with whom she has been living. Isham vigorously denied this and told of having gone to the home to visit his children and talk reconciliation with his wife only

to find her and the Sexton woman and two men surrounding a bucket of beer. He also declared he had yet to see a washing hung up in the back yard of their home and that it was a question how they earned a livelihood. He said he started out to hunt up Officer Blithuff to lead him to the beer party but that she beat him to Mil-liff and had him arrested.

The court dismissed Isham with the advice that he and wife make up and live together for the sake of their children and ordered that an investigation be made of the conditions reported by the young man.

It Was Canterbury

The article in Friday's Times naming Andy Leslie as the man who cracked "Shorty" Martin, over the head with a mace a few years ago did him an injustice. It was Officer Canterbury and not Leslie who had the tilt with Martin.

Hat Matches Suit; Davis Draws Fine

William "Dippy" Davis drew a \$20 fine in the mayor's court Saturday for alleged assaulting Geo. E. Scullinger during the Mardi Gras parade last Saturday night.

Harry Humphreys, who was jointly charged with Davis for the assault, proved an alibi and was

dismissed. Davis, too, denied fighting but a hat which the court felt matched his nobby new suit and which police picked up near the scene of the trouble was regarded as tell tale evidence against him and "Dippy" graciously stepped forward and arranged payment of his fine.

PLANS CALL FOR DOUBLE DRIVEWAY

WHAT'S THIS; "YALLER" REALLY WANTS TO WORK

"Open up boys and let this industrious man through, for he wants to go to work," said Mayor Frick amid uproarious laughter in addressing Van "Yaller" Lo-tell, in police court, Saturday. Van, the uncrowned leader of the Neversweat gang, had just astonished the court by his third appearance of the week, he having

been looked up Friday night for assailing "Dad" the veteran flunkie of the city prison. He said he did not want to go home in answer to the mayor's statement that his wife no longer wanted him about, but that he was really anxious to go to work. It was this startling declaration that won for him his prompt dismissal.

Home Rule Jottings No. 1

Will the Drys please explain their misrepresentations of last year? We have not yet heard a word of apology for their studied attempts to deceive the people.

The Drys' Statement that the Prohibition Amendment will permit the use of Liquor is a temporary sop handed out to fool the voters. The ultimate aim of the Drys is to absolutely stop the use of all liquors. Don't be fooled by their sweet sounding promises.

The Drys can't stand the Gaff. Why are our signs calling attention to their lies of last year being torn down?

The people of Alabama rejected Prohibition by a large majority, after several years experience. In spite of this a Dry Legislature passed a Prohibition Law this year. The Governor of Alabama vetoed the Law on the ground that such a matter should be left to the people. The Prohibition Legislature passed the Bill over the Governor's veto, and Prohibition is now in effect in spite of the people's verdict. How do YOU like Prohibition methods? They are the same everywhere.

In Prohibition Arizona wine cannot even be secured for communion purposes. How do you like Prohibition?

A member of a so-called "Dry" working men's organization bragged last night that he controlled Five Hundred Workingmen and would have them vote "Dry." Isn't it strange to see some men lined up for a proposition that is directed right at them? Were not some people fooled enough last year?

Luke McLuke says:
The old-fashioned hypocrite who denounced Saloons as Hell Holes and who fondled his pet bottle at home so often that he died with a flock of red, white and blue boacollectors in his bed, now has a son who is a member of the Society for Minding Other People's Business and who works so hard for Prohibition that he has to drink a bottle of Bunk's Boozie Bitters every day as a Tonic.

Local German's View Of European War

(Written by Louis F. Korth, former Editor of The Correspondent.)

Friday, Oct. 15, 1915.

Bulgaria has actively entered the war by invasion of Serbia, where her forces are now operating against the railroad from Graza on the Serbia-Roumanian border to Nish, the present Serbian capital, by which the Serbians get much of their supplies. These forces are commanded by General Bogachoff, who distinguished himself in the Balkan wars. Another Bulgarian army under General Toneff is watching the Roumanian border and a third one under Prince Boris is held in reserve.

The Bulgarians have flanked the Serbian frontier fortress Pirot which covers the road between the two capitals, Nish and Sofia. South of Pirot Bulgarian forces have advanced from Zaribrod to Wranja and forced a strong Serbian column back to the latter place. They are approaching the road from Nish to Saloniki, the so-called Orient line, below Nish.

The Serbians have made a demonstration against the Bulgarian frontier. They crossed it at Belograd and were driven back.

The Austro-German forces have captured Belgrade, the old Serbian capital on the Danube, and the fortress Semendria, terminal of the Eastern branch of the Orient road on the same river, which give them a good basis. The Serbians did not evacuate their capital without resistance, as first reports from London gave out, but the Germans had to fight for every foot of it. A furious hand-to-hand combat took place in the narrow streets and alleys of the old city. The fortified heights of Zarkovo and Mirievo, which protect the city to the south, were carried by storm, also the fortress Posharevac to the east of Semendria.

Having made themselves safe in their rear and communications the Germans have taken up the march into the mountain country, the Serbian's stronghold, where they have been holding the Austrians at bay since last winter. They have passed Zalesnik after some fighting, while the Serbians are concentrating backward.

The territory between Save and Danube, which is now the theatre of war, forms a system of fortifications in eight tiers, mounted with heavy calibre Cruizers, which are served by skilled French and British gunners. From its base, Belgrade, there are four strategic roads going to Semendria, Zalesnik, Kragjevac and Threnovatch. The first two have

been taken. Austrians are now on the one to Krag, Germans on the other. Another Austrian army is operating on the Drina, west.

So far the Austro-Germans have captured over 3,000 prisoners and 52 guns, among them nine British navy guns.

Turkish troops are guarding the coasts of the Black and the Aegean Seas to prevent the landing of Russians and British troops.

The Austrian Danube flotilla has cleared the river of Russian mines so the Austro-German troops can now be supplied by water.

Germans and Austrians operate separately in Serbia, the Austrians under command of General Koess, the Germans under Von Gallwitz, Mackenson's general headquarters are in Belgrade.

Bulgaria has 350,000 men in eleven divisions under arms but can put 500,000 into the field, if necessary. Her artillery is fitted out with 750 Krupps, one-third of high calibre. Of cavalry it has only 8,000, but all good mounts. The Bulgarian soldier is very hardy and as mountaineer a good marcher. The corps of officers has made a reputation in the Balkan wars.

To influence the Balkan situation the Russian armies in Volhynia and Southeastern Galicia, heavily reinforced and resupplied, have been displaying considerable activity again of late from the Styria river down to the Sereth and the Roumanian frontier, on which London had set great hopes.

While the Russians claim local successes (they break the German lines every day) the Vienna war office says: "The attacks of the enemy have slowed down considerably. On the Stripa line we have repulsed every one of them and on the Lower Styria we drove them in a northeasterly direction, taking 2,100 prisoners."

General Bothmer, the commander of the German troops in the Tarnopol region, on the extreme right of the Austro-German line, reports: "Several attacks with heavy columns on the Sereth river have been repulsed with very heavy loss to the enemy. Our troops have taken the heights of Hlaski, north of Tarnopol. Three different attempts to retake them have been frustrated."

Prince Leopold reports that Russian attacks north of Plesk, an east of Baronovicki, where the Minsk-Moscow road strikes. The Vilna-Rovno road was easily met by his troops.

General Linsingen after a decisive victory over the Russians has crossed the Styria river and is pressing toward the Goryn. If the Russians cannot stop him the fall of Rovno, the strongest of the Volhynian fortress triangle, which yet holds out, seems certain.

The London Times, which has figured all along with the assistance of the Balkan states, today resignedly says "Roumania still holds out but she holds out in passive isolation, no longer in touch with the advancing Russian armies and inevitably influenced by what is passing around her."

On the line Duenaburg-Poniesh to the north Hindenburg has taken the Russian fortifications on a front of five miles. After closing in on Duenaburg from the south he has now tightened his grip from the west and is bombarding the fortress from both directions. The German war office states: "The Russian front at Illust has been broken again and the strongly fortified town, only three miles distant from Duenaburg (Drinsk) is in our hands."

There is nothing much to report from the Gallipoli peninsula this week. It is improbable that there will be any more great efforts of the Allies on the Dardanelles less so because the Turco-Bulgarian arrangement regarding the frontier and the railroad between Adrianople and the Aegean Sea, now in force, releases a large number of Turkish troops for use elsewhere. The Allies may be forced by the Balkan war to give up the Dardanelles campaign.

According to despatches from Udine, where the Italian general headquarters are, Italy will either send troops to the Balkan or relieve the British troops on the peninsula. The movement to attack Trieste by way of Gorizia has been initiated by the bombardment of the latter place. The Austrian war office in its latest report says: "On the entire Italian front, the situation remains unchanged. Attacks on the plateau of Vieltreuth have failed. The Italians lost over 2,000 men."

The new British French offensive on the west front is not yet at an end, but is losing in force. The Germans have been successful in their counter attacks, notably east of Soehetz at Grenelich, Artois, and at Tahure in the Champagne. Here they took several hundred yards of trenches on

a three miles front. Their second line in the Champagne is very strong and has been built out considerably since the September attack of French, besides being technically improved. The crests of the hills have been strongly wired, and rows of machine guns make attacks without methodical preparations very difficult. Late unsuccessful attempts of the French have cost them many men again.

After capture of the five roads junction on the Vimy ridge on the road to Lens the Germans have retaken the works in the Givenchi woods east of Soehetz.

The British on Thursday last attacked the whole German line from Ypres to Loos, 25 miles, putting the Canadians (60,000) on the storming line this time and taking a number of trenches, as General French reports, but Berlin says, they have been expelled again.

How the replacement of the Grand Duke Nicolaievitch in the command of the Russian army by the czar came about is told by the correspondent of a Danish paper in Petersburg. It was the mayor of Moscow and a number of notables who approached the new minister of war, Poliankov, with a suggestion to this effect, who submitted it to the czar. In an unaccountable way the grand duke learned of it and demanded the dismissal of Poliankov, otherwise he would lay down the command.

The czar called a cabinet meeting, in which he was informed that investigations not yet completed had unearthed gross defraudations in the commissary department, in which the late minister of war and favorite of the grand duke, Suchomlinov, was implicated and that the scandal had become public. The people held the grand duke responsible for it.

The czar was deeply moved by withheld his decision. A few days later he called a council of the ministers, the party heads of the Duma and the principal notables of the empire, in which after a lengthy discussion and interchange of views he told the council that he had accepted the resignation of the grand duke as commander of the army and would place himself at the head of it.

With the words "I give my crown and my country into your hands during my absence" the czar handed the scepter signifying his commands to Poliankov and an hour later started for the front.

There has been another change in the czar's cabinet. Prince Cherbatoff and Alexander Samarin, procurator general of the church, two of its most influential members, have been retired as a concession to the Duma. Cherbatoff, minister of the interior, is suspected of being implicated in the lately discovered "irregularities." Samarin's retirement came about through differences with the mysterious monk Gregor Rasputin, a former peasant, who by his mysticism gained complete control over the czar and dominated the court. He is called the secret ruler of Russia.

The Petersburg correspondent of the London Times draws a very gloomy picture of the financial and economic conditions of Russia. Ample provisions were made for a war of six months, but nobody figured with a lengthy war and the enormous losses the country has suffered, he says. The Russian Rouble has depreciated by 40 per cent and the revenues have dwindled down to almost nothing.

Russia has broke down. It owes France \$4,000,000,000 and England half as much and for a year has not paid any interest on this debt, amounting to \$300,000,000, which England and France have to stand for, as they have guaranteed payment of interest to the bondholders.

The Overseas News Agency reports from Berlin that on September 27 bloody barricade fight took place in the streets of Moscow between citizens and police, in which a number of the combatants were killed and wounded. Among the killed was a student at whose funeral his comrades inaugurated a big demonstration which again led to collision with the police. Riots have also taken place at Odessa, St. Petersburg, Kharzow and Rostow.

The aristocracy and the old merchants guild of Moscow have petitioned the czar to resurrect the Russia of the seventh century and make it a country of orthodox panislarism again, with Moscow as the seat of government and his court and personal domain where he would be safe from liberalism and revolution.

Financial conditions in Japan are unsatisfactory owing to depletion of the gold reserve and the fact that \$150,000,000 of Japanese gold cannot be removed from Europe. Japan really has no command over her own funds now held in London.

France is again in the throes of a political crisis. Theophile Delcasse, foreign minister of affairs, the Sir Grey of France, who more than any other French politician is responsible for the war, has stepped down on duty. After the announcement of his resignation in the Chambers the left moved for a secret session for debate on war questions. (The Balkan expedition it is supposed.) The motion was defeated and tumultuous demonstrations followed. Lights were turned out and the sitting suspended. Delcasse has been the exponent of the "revanche" idea and policy for the last twenty years. In 1906, during the Morocco crisis, already he had France on the brink of war, relying on broken English promises. He is the first of the war instigators to go. Others will follow.

A reader wants to know when Greece and Italy fell out. After the Tripolitan war when Italy refused to retribute the Turkish islands in the Mediterranean, forming the Dodecanesis, which Greece claimed as her prize after the Balkan wars. The Italians have now occupied twelve of these islands and the Greek government has entered a formal protest.

Count Von Bernstorff, the German ambassador, has published the letter which he directed some time ago to Secretary of State Lansing in refutation of the false and distasteful charges of the New York World, based upon papers stolen from Dr. Albert, the Fiscal Agent of the German government, and fitted to suit. His lengthy and exhaustive defense shows that he has acted square and correct in every instance and that the German embassy has never been concerned in fomenting strikes or troubles in arms factories, and on a call from "The Vaterland" for support told the editor, the embassy was not in sympathy with his attacks upon the administration and the president. The latter were informed of the establishment of a German bureau of information, whose work has been open to any one. "But I doubt," the letter closes, "whether the world has ever witnessed a publicity campaign or a secret service bureau approaching the dimensions, influence and efficiency of that which is maintained in this country by our enemies."

The new Greek premier, Zaimas, has stated in parliament that Greece would observe armed neutrality to meet events as they occur, and the Roumanian premier Benito has assured Italy, its ally, that Roumania would strike but take its own time for it. This means that both hold it with the watchful waiting policy. To a note of the Serbian government as to whether Greece would come to Serbia's assistance, the Greek premier has answered that the war had surpassed the bounds of a local Balkan war, in which alone Greece was obliged to stand by Serbia (against Bulgaria) to keep a pith equilibrium on the Balkan. By entering the world war Greece would risk her independence.

The direct cause of the present Balkan war is the refusal of the Roumanian government to allow the passage of war material for Turkey through her territory, although it gave Russia that privilege. This forced the Central Powers to open the way for it through Serbia and Bulgaria. The present Balkan war is the third one in three years: 1912 first Balkan war against Turkey, when Bulgaria gained Macedonia, inhabited by people of her race, by the loss of one-fourth of her army; 1913 war between Bulgaria and her former allies about the spoils of the first war, in which Bulgaria lost almost all she had conquered to Serbia, Greece, Roumania which took sides against her, and Montenegro; and the present war, which in reality is a war to free Middle Europe and to open the road for them from the North Sea to the Persian Gulf, as Berlin and Vienna proclaim.

"England will hold through," Lord Kitchener declares. "It is only a question of munition as to who will be the final victor. France and England have trebled their output in the last three months. They have the world to draw from. Several ship loads enter Liverpool harbor every day. The Central Powers can't duplicate it." Of silver bullets they don't talk any more in London.

The recruiting total in England has been raised from 20,000 to 35,000 per week over the head of the labor party. "The cabinet is divided on the conscription question an ill the labor people do not give in a conscription law is sure to be passed," the Times says.

"Home of Character No. 222"

A Colonial House

By John Henry Newson

This design is of a pure colonial type and makes a most attractive home. The exterior is carried out in wide siding and should preferably be all white with green shingle roof and red brick chimney.

The plan is of the usual center hall type and considerable saving is effected by the enclosed stairway, which permits a small den or library at the rear of the hall. The living room occupies one entire side of the house, is well lighted, and with the porch at the side makes a most attractive room. The dining room and kitchen occupy the other side, and the kitchen contains ample space for complete kitchen equipment and cupboard. The second floor contains four large bedrooms and bath, with ample closets off each room, and a linen closet. Two additional rooms can be placed in the attic if desired. Basement under the entire house.

This design can be built under ordinary conditions for about \$1000.

Plan your home now! Know just what you want before you begin to build. Study the types of homes shown on this page each week and remember that full information is free if you always give number of home and address letter to "John Henry Newson, Homes of Character Dept., The Times."

A JAIL DELIVERY WAS FRUSTRATED AT GREENUP

A jail delivery was frustrated at Greenup this week by Henry Stewart, son of the jailer. He found that the prisoners had broken an iron bar and on looking around learned that several other bars had been sawed and were ready to be pulled out.

Jailer Stewart claims that prisoners used saws made out of a case knife and the steel tongues of their shoes.

Lesson III.—Fourth Quarter, For Oct. 17, 1915.

THE INTERNATIONAL SERIES.

Text of the Lesson, II Kings v, 1-14.
Memory Verses, 7, 8—Golden Text, Ex. xv, 25—Commentary Prepared by Rev. D. M. Stearna.

In our last lesson we saw the triumphant entry into glory, without dying, of the discouraged man who wanted to die. If we would keep our eyes on the glory which surely awaits us we would not be so easily cast down (Rom. viii, 18). We also saw the sign of God in Elisha so manifestly upon Elisha that there recognized it. So it should be with us. Elisha longed for double portion of Elisha's spirit and by his unwavering holding he obtained it. The Lord wrought through Elisha six miracles and through Elisha at least twelve. Like Elisha he divided Jordan, restored a boy to life, multiplied bread and oil and did other wonders which Elisha did not. Previous to the lesson of today, besides those just mentioned, there was the healing of the waters at Jericho and of the poisoned pottage and the waters that filled ditches without wind or rain.

The multiplying of the widow's oil to pay her debt and save her sons (Iv, 1-7) suggests what might be our privilege if we were simply vessels and believed God. The bringing to life of the Shunammite's son brings us face to face with Him who is the resurrection and the life, who alone does such wonders and still liveth. The people in today's lesson are a proud, mighty man, captain of the host of the king of Syria, very self important, but a leper; a little maid of Israel, who loved to magnify the God of Israel; a man of God, who lived before God and sought nothing from man, and some servants who were wiser than their master.

How sad and how suggestive the words concerning this mighty man in valor who had wrought deliverance for Syria, "a leper," an incurable sick man with the most loathsome of all diseases. What did his greatness amount to under these circumstances? Leprosy is the most remarkable emblem of sin in the Bible, and all are by nature children of wrath, dead in trespasses and sins, spiritually lepers (Eph. ii, 1-3). What profit was there in the abundance or the riches of the men of Luke xii and xvi when their souls were required of them? What does it profit a man to be great in the world or to have millions of money if he is not a saved man? If he dies as of Christ the fate of the rich man of Luke xvi must be his.

This little captive maid of the land of Israel, who had been an ordinary child, might have said: "I am glad that he is a leper. Why did he take me away from my home?" and other such rebellious words; but, though she must have had an aching heart, she was evidently a true child of God and, like Joseph in the house of Potiphar, sought to glorify God even in her very trying circumstances. She was like Pollyanna. She was sorry for Naaman and told his wife, on whom she waited, of the prophet of God in Israel who could do such wonderful things. How she puts to shame the complainers who are so prone to murmur because of their circumstances and also all who know of the redemption that is in Christ Jesus, but never tell others of it. Where is the spirit of him who said, "As much as in me is, I am ready to preach the gospel." "By all means to save some" (Rom. i, 14-15; Cor. ix, 22). Because of the little maid's testimony kings are moved and health brought to the leper, but we do not hear of any reward for the little maid. The Lord will not forget her in the resurrection (Luke xiv, 14; Matt. x, 42).

The king of Syria sent Naaman to the king of Israel with a letter and much silver and gold and ten changes of raiment (verses 6, 8). The king of Israel was the wrong man to go to, but Elisha heard of it and said, "Let him come now to me, and he shall know that there is a prophet in Israel" (verse 6). Can you see the great man, with all his retinue, at the door of the house of Elisha, expecting the prophet to come out to him and with some great display give him health? Do you see the man of God calmly abiding in his house and sending a messenger to say, "Go and wash in Jordan seven times?" (Verses 9-11). Then do you see a great, proud man going away in a rage? (Verse 12). What a fearful thing is pride and self importance, and how foolish are our thoughts! Yet Abraham suffered because he had his own thoughts, and Mary had three days' sorrow because she supposed (Gen. xx, 11; Luke ii, 44). By the reasonable advice of his servants Naaman became calm and obeyed the voice of God by the prophet and was thoroughly healed, made clean (verses 13, 14). Now see him and all his company again before Elisha acknowledging the God of Israel as the true God and urging the prophet to accept a reward or a blessing. But the man of God refused, reminding us of Abram and the king of Sodom (Gen. xii, 23). There is no salvation for the sinner except by the blood of Jesus Christ, who went down into the waters of Jordan, or judgment, for us. We cannot recompense Him for salvation, but we can serve Him because He saves us. The gift of God cannot be purchased (Acts viii, 20).

THE BROTHERHOOD CLASS FOR MEN

The smallest attendance we have ever had since the organization of the Brotherhood—that was the record we achieved last Sunday morning.

The Korn Karnival was responsible for the slump of course, and this fact affords us some consolation, for the K. K. has become such a valuable factor in the community life that perhaps it is worth even the sacrifice of one Sunday's attendance at the Brotherhood! But let us get right

Belief In God

The evening services at All Saints church have been attended by comparatively large congregations during the past few weeks, to a notable extent by men who have been attracted by the plain, straightforward manner in which the rector has dealt with the interesting topics announced for discussion. Second Presbyterians Give Cordial Welcome To Pastor

ANNIVERSARY WILL BE CELEBRATED SUNDAY

Cordial welcome was extended to Rev. George P. Horst, the new pastor of the Second Presbyterian church, at an informal reception held in the basement of the church Friday evening.

From seven o'clock until after eight Rev. Horst stood in the receiving line with the elders and their wives on either side, while a steady stream of members and friends of the church grasped his hand in token of welcome and good will. It was a splendid turnout, one that well demonstrated the hospitality with which the people of this city receive a stranger into their midst.

Each one present was welcomed by the following elders and their wives: Mr. and Mrs. Chester Lloyd; Mr. and Mrs. Henry W. Hecr; Mr. and Mrs. W. W. Gates, Jr.; Mr. and Mrs. Irving Drow; Mrs. Henry Smith, Dr. A. G. Selhards; Mr. and Mrs. L. W. Leedom; Mr. and Mrs. A. C. Williams; Mr. and Mrs. John E. Williams; Mr. and Mrs. Chas. Dowling; Mr. and Mrs. D. H. Harmon and H. C. Murfin. Rev. Horst was in the center of the line, and was introduced by John E. Williams.

During the evening, refreshments of ice cream, cake, coffee, and minis, were served by the young ladies of the church. Special music was furnished by the Orpheus Trio, composed of Laddie Conger, flute; Ladora White, violin; and Eloise Hicks, piano and a male quartette composed of Albert Marting, Conrad Roth, Chester Lloyd and Melzar Chalk.

The evening was spent in an enjoyable social session and every one present had a pleasant time. Local ministers who were present at the reception were Rev. Charles Chandler, pastor of Bigelow M. E.; Rev. J. E. Dibert, of the Wesley Hall Mission; Rev. C. Lloyd Strooker, pastor of Trinity M. E.; Rev. S. D. Conger, retired; Rev. Albert Marting, pastor of the Fourth Street M. E.; F. B. Riddle of the R. Y. M. C. A., and Dr. George W. Grimes, retired.

Several of the trustees, elders and deacons were called upon for brief words of welcome by John E. Williams, the master-of-ceremonies, and all responded in a cordial vein. Rev. Horst acknowledged the welcome to himself in a short talk that was full of feeling.

Special services will be held Sunday morning and evening at the German Evangelical church commemorating the founding of the church in this county 75 years ago. The anniversary is being observed in all the Evangelical churches in the land. Rev. Samuel Lindenmeyer of the local church has prepared two strong sermons for the occasion.

THE FIRST CHRISTIAN PLAN TO LEAD

Although the First Christian Bible school lost in the contest last Sunday with the Allies they are still in the lead by a few and they are planning to increase that lead next Sunday. Every member of the church and Bible school is urged to be present at 9 o'clock tomorrow morning. Cards will be given out to increase the interest. Gilbert Dodd will teach the lesson tomorrow morning in absence of the pastor who will be one of the speakers in the Flying Squadron campaign for a day.

GENERAL VILLA REPORTED SLAIN

KILLED IN REVOLT, MEXICAN ASSERTS

El Paso, Texas, Oct. 16.—Reports current here for twelve hours that General Francisco Villa, chief of the constitutionalist forces in Mexico, had been arrested by his own men at Casas Grandes, convicted and put to death, could not be confirmed here early today. Messages from General Villa in his private code were received at Juarez at four o'clock yesterday afternoon.

El Paso, Texas, Oct. 16.—A report that General Francisco Villa, leader of the Northern faction in Mexico, had been killed, was brought to El Paso early today by a Mexican who just arrived from Casas Grandes.

According to the story, Villa was shot in a fight which disintegrated broke out in the Villa army late yesterday.

Another report brought by an American passenger said that on Friday Villa was being tried by a court martial, and that the trial was still in progress when the train left Casas Grandes.

The Mexican who reported Villa shot declared that the trouble arose when the chief called upon one of his comrades for a forced loan. The man was ordered shot, the report continues, when he refused to accede to Villa's demands. Division in the army, resulting, it was said, approximately seven thousand of the nine thousand troops revolting. In a fight that followed the Mexican said Villa suffered mortal wounds.

The Villa garrison at Juarez last night was said to be greatly disturbed. The exact nature of conditions there could not be learned as residents had feared to cross the international bridge. A crowd of persons gathered at the river late last night but little information filtered through.

Carnegie Feels Good After His Vacation

New York, Oct. 16.—Andrew Carnegie was at his home in this city today, improved in health, after a four months' stay at Bar Harbor, Maine. Despite his almost eighty years, Mr. Carnegie moved about his garden with a vigorous step and in his manner. He said he had greatly enjoyed his stay at Bar Harbor, where he spent the summer in playing golf, yachting, automobiling and deep sea fishing. Much of his time was passed on board his steam yacht, El Placita, angling for cod and haddock, and he said today that he had landed some catches of from twenty to forty fish.

Mr. Carnegie expects to spend the winter at his Fifth Avenue home. On November 25th he will celebrate there the eightieth anniversary of his birth.

CARRANZA WILL BE RECOGNIZED SOON

Washington, Oct. 16.—Recognition of the Carranza government in Mexico probably will be extended next week. The Pan-American Peace Conference will meet then to arrange the form the recognition shall take. It is expected that all of the Latin-American nations will take identical action with the United States.

Eliseo Arredondo will be recognized by the conference next week when he probably will be associated with a communication, notifying him of the recognition of Carranza.

HOPES FOR ALLIES

Paris, Oct. 16.—Earnest hope for the success of the allies was expressed by former Premier Venizelos of Greece, when asked by the Athens correspondent of the London Times to express his opinion of the refusal of the new Greek government to send an army to the assistance of Serbia.

JOHN D. WINS LAND DISPUTE

New York, Oct. 16.—John D. Rockefeller and the Catholic foreign mission society have compromised their dispute over 50 acres of land adjoining the Rockefeller estate at Pocantico Hills, and Mr. Rockefeller will get the land. Three years ago the society contracted to purchase the property from Joseph T. Oussani for \$45,000. Subsequently Mr. Rockefeller's agent paid down \$10,000 on a bargain to buy the land for \$68,000. The mission society brought suit to force the owner to fulfill his contract and won it. Today it was announced that the society had purchased land elsewhere and has sold the disputed tract to Mr. Rockefeller.

BIG EASTERN ELEVEN READY FOR CONTESTS

Chicago, Oct. 16.—Football revels of the Big Nine closed today in the first test of the championship season. Losers will be eliminated as contenders for the 1916 title. The important games brought together Indiana at Chicago; Illinois at Ohio State; Purdue at Wisconsin; and Northwestern at Iowa. Minnesota was slated to meet South Dakota at Minneapolis. Other football games in the West today: Michigan Aggies vs. Carroll at East Lansing; Michigan vs. Ohio at Ann Arbor; Washington at Crawfordsville; Cincinnati vs. Kenyon at Cincinnati; Mount Union vs. Hiram at Alliance.

Foremost in point of interest among the gridiron contests in the east this afternoon is the game at Cambridge between Harvard and Princeton.

ILLINOIS AND O. S. U. WILL BATTLE TODAY

Columbus, Oct. 16.—Illinois and Ohio State will meet on Ohio field today in their first Western Conference football game of the season. Illinois will enter the contest handicapped by injuries, according to Coach Zuppke. He said there was little hope that Pogue, the fleet half-back, would get into the game and neither Quarterback Clark nor End Squier was expected to start. With these men out the Ohioans were expected to hold to a low mark. The Zuppke machine, which has already shown its ability to pile up huge scores. Injuries will keep two Ohio players, Fullback Boehl and Center Seddon, out of the struggle. -Ohio will be outweighed about ten pounds to a man. The Illinois average approximately 178 while the Ohio team will weigh in at 167. Probable line-up:

Ohio State	Position	Illinois

Cardinals Meet To Decide On Wedding

Paris, Oct. 16.—The committee of Cardinals appointed by Pope Benedict to reconsider the decisions of the Rota Tribunal and the Segnatura Tribunal in the suit of Count Boni de Castellane for the annulment of his marriage to Anna Gould, now the duchess of Talleyrand, met today. The committee adjourned without reaching a definite conclusion but is expected to confirm the last ruling of the Rota, which maintained that in the eyes of the church the marriage is indissoluble.

NEGRO GIVEN DEATH PENALTY FOR ASSAULT

Newport, R. I., Oct. 16.—After deliberating one hour and twenty-five minutes, a jury in the Campbell county court, returned a verdict early today, finding Harry Garrison, 18 years old, a negro, guilty of having attacked Mrs. Louella Crowder, white, and fixed the penalty at death. Garrison was sentenced to die in the electric chair at the Eddyville penitentiary.

Mrs. Crowder, who lives at Oneonta, near the eastern line of Campbell county, was attacked at her home on July 28 last. When the foramen of the jury reported the verdict, Mrs. Crowder, who was in the courtroom, exclaimed: "Justice has been done."

This is the first time that the death penalty has been obtained in Campbell county since Scott Jackson and Alonzo Walling, both white, the murderers of Pearl Bryan, whose headless body was found near Newport, were hung in the jail here on March 8, 1897.

RETIRED REAR ADMIRAL TO BE COURT MARTIALED

Washington, Oct. 16.—Rear Admiral N. Little, retired, today faced trial by court martial on charges involving neglect and careless methods in the conduct of his duties while inspector of machinery at the Fore River Shipbuilding company, Quincy, Mass., in connection with the construction of the submarine U. S. S. K-2. He will be tried in Boston.

In explaining his reason for action against an officer who has been retired after attaining the highest rank on charges relating to duties performed prior to retirement, the settlement indicated the department's determination to have the construction of ships conducted with the greatest care.

According to navy officials, trouble with the submarine's storage batteries developed since her acceptance in January, 1914. Defective installation, it was said, caused short circuiting.

EIGHT ARE HELD FOR MURDER

Chicago, Oct. 16.—Eight persons, five men and three women, were held under arrest today in connection with the murder of Harry Phillips, a jeweler, who was found shot to death in a west side apartment building last night.

Phillips' body was found on the fourth floor of the building, and the police believe it had been thrown down the steps from the fifth floor on which he had bachelor apartments. Phillips owned a small neighborhood jewelry store.

Police are baffled as to the identity of the slayer, but believe a man committed the act. Some garments belonging to a woman were found in Phillips' apartments.

WILL SEE WILSON

Stanford University, Calif., Oct. 16.—Dr. David Starr Jordan, chancellor of Stanford University, was to leave here today for Washington, as a delegate from the International Peace Congress to deliver an expression of the sentiment of the congress to President Wilson. The message entrusted to Dr. Jordan by the peace congress strongly urges that the United States try to bring about mediation of the warring European nations.

Martinsburg, W. Va., Oct. 16.—As a result of the big contracts for artificial limbs placed in this country by the Allies, acres of yellow willow in this section have become valuable. While heretofore not a dollar had been realized for the wood, now it is being sold at \$100 a cord. The artificial limb plants in this section are now in full leaf.

MILITARY FORCE OF 665,000 PLANNED BY UNITED STATES

Washington, Oct. 16.—Provision for a military force of 665,000 men and construction by 1920 of sixteen capital ships—ten dreadnoughts and six battle cruisers—are included in plans for National Defense as approved by President Wilson, and which had virtually reached completion today.

This great military force would be provided for by the creation of a continental army of 400,000, an increase in the regular army to 140,000 men and a militia strength of 125,000 men.

The program for the navy provides for the construction during the first year of a five-year period of two dreadnoughts, two battle cruisers, twenty-five submarines, five sea-going submarines, twelve destroyers, and provides an increase of 8,000 in personnel and an increase of 250 in the naval academy student body. At the end of five years it is proposed to add to the navy, in addition to the sixteen capital ships, more than seventy submarines, fifty destroyers, ten scout cruisers and the necessary auxiliaries. The total cost would be \$500,000,000.

The defense plans call for a total expenditure on the army and navy next year of approximately \$400,000,000. The army's annual appropriation would be increased by \$75,000,000 to provide for augmenting the regular army and the creation of a continental army.

MILITIA WILL GUARD PRIMARY MEETINGS

Charleston, S. C., Oct. 16.—Militia guard was provided today by order of Governor Manning for the meeting of the City Democratic Executive Committee, which was broken up here yesterday by a shooting scrape in which one man was killed and four were injured. The committee was attempting to count the ballots of the recent Democratic municipal primary to determine whether Mayor John P. Orce or his opponent had been nominated. For mayor, when the shooting was begun by an unknown person in the committee room.

Police, deputy sheriffs and a local militia company soon dispersed the crowd, both in the building and on the streets outside, and prevented further disorder. Governor Manning then ordered militiamen to guard the committee when it resumes its task today.

Within half an hour after yesterday's shooting, the Washington Light Infantry, with fixed bayonets, clearing the street outside the buildings where the shooting occurred, said.

and later four other companies were assembled at their armory for possible duty. As an additional precaution, the governor closed all dispensaries in Charleston county, in which the city of Charleston is situated, and ordered eight companies of militia in nearby towns to be prepared to come here if ordered.

The man killed in the committee room yesterday was Sidney J. Cohen, reporter for a local paper. All of the others who were shot or injured, it was said today. Besides those shot, a number of persons in the committee room and in the adjacent hall-way, where it was said disorder first broke out, were suffering from bruises, suffered in the scuffle for exits. Others were clubbed, it was said, by policemen. Six men were arrested; all said to be supporters of Hyde. They were held without charges being preferred against them.

Three bullet boxes thrown into the street during the shooting were recovered shortly afterwards without having been broken open, it was said.

HERE'S A REPTILE 47 FEET LONG

New York, Oct. 16.—A specimen of the Tyrannosaurus, 47 feet long and 18 1/2 feet high, was placed on exhibition today at the American museum of natural history. It was unearthed on Big Dry Creek, in the Montana Bad Lands, by Barnum Brown, a fossil hunter, who has discovered several specimens of the Dinosaur. The Tyrannosaurus is a giant reptile distinctly related to lizards, but with hind legs fashioned like those of birds, and its gigantic head, dagger-like teeth and sharp claws show that it was carnivorous. It roamed through the great basins of the West 8,000,000 years ago.

Charleston, W. Va., Oct. 16.—Earl Henry, chief of the West Virginia department of mines, after a visit in the northern part of the state, said today that it is impossible for the mine operators to find a sufficient number of men to work the mines to the capacity demanded by orders. Mr. Henry said that unless more labor is found soon, many other interests will be affected.

London, Oct. 16.—Notwithstanding the recent denial of Sir Edward Carson, the attorney general, that he had resigned, the assertion is made by the parliamentary corps of the Daily News that he has given up his office. Announcement to this effect is withheld by the government, the correspondent says because of its hope that in the interests of unity he may be persuaded to withdraw his resignation, the reason for which it is said has not been ascertained.

DRAW YOUR OWN CONCLUSION.

From the Star this morning, page 2:

"Officers Jake Cooper and Delbert Campbell, who engaged in a club fight at the corner of Sixth and Chillicothe streets Thursday evening, were discharged by Safety Director Linck. They turned in their badges and property belonging to the city yesterday morning."

"The trial of the two men on charges of disorderly fighting was set for 9 o'clock this morning. Failure of witnesses to appear yesterday was the cause of the postponement."

From the Star this morning, editorial page:

"Despite the report in the Times, Cooper and Campbell, the two policemen who disgraced Portsmouth by fighting on our principal street, have not been dismissed from the service. They were suspended, pending trial, but they have not been dismissed, and they have not even been placed under arrest as would have been the case had any other citizens committed a like offense."

"Under the circumstances, the Star repeats its demand that men, who have no better control of their tempers, no finer sense of official dignity, no greater respect for law and order, be not longer continued as peace officers in this community."

NEEDS INVESTIGATION.

In a mild moment of anger at what he conceived to be a deplorable condition of school affairs, Editor Crawford, of the Peoples Defender, of West Union, delivered himself of a column or two of red hot language, prefaced however with the statement that he was "not prompted by a single iota of malice or revenge." He then proceeded to remark, in his gentle way that "the neighborhood and morals of the young men and the virtue of some of the young women are being debauched by the infamy that is permeating the school system of this (Adams) county. Let the fathers visit their sons and the mothers their daughters, what approaches have been made to them for the verification of these statements."

The editor then goes on to make a savage assault upon the Adams county school system, and if there is foundation for his allegations there should be a drastic inquiry made, with a subsequent house cleaning, if developments warrant. It is due the good people of Adams that the charges be either proven or disproven.

WHAT KIND OF PEOPLE WILL THE WAR SEND TO US?

War is always hardest on the Jews. They have no voice in the government. They are subjects of personal and official persecution. And the centers of Jewish emigration are in the eastern war zones. Jewish immigration to this country is assisted, as is that of other nations, by friends already in the country, who give generously to the oppressed of their race and have organized agencies for the distribution of incoming Jews and the finding of places of employment for them. The stories of Jewish outrages have quickened the ready sympathies of the American Jew, and undoubtedly when the censorship is raised and the stories of atrocities find their way to this country Jewish immigration will be stimulated at a more rapid rate than ever before.

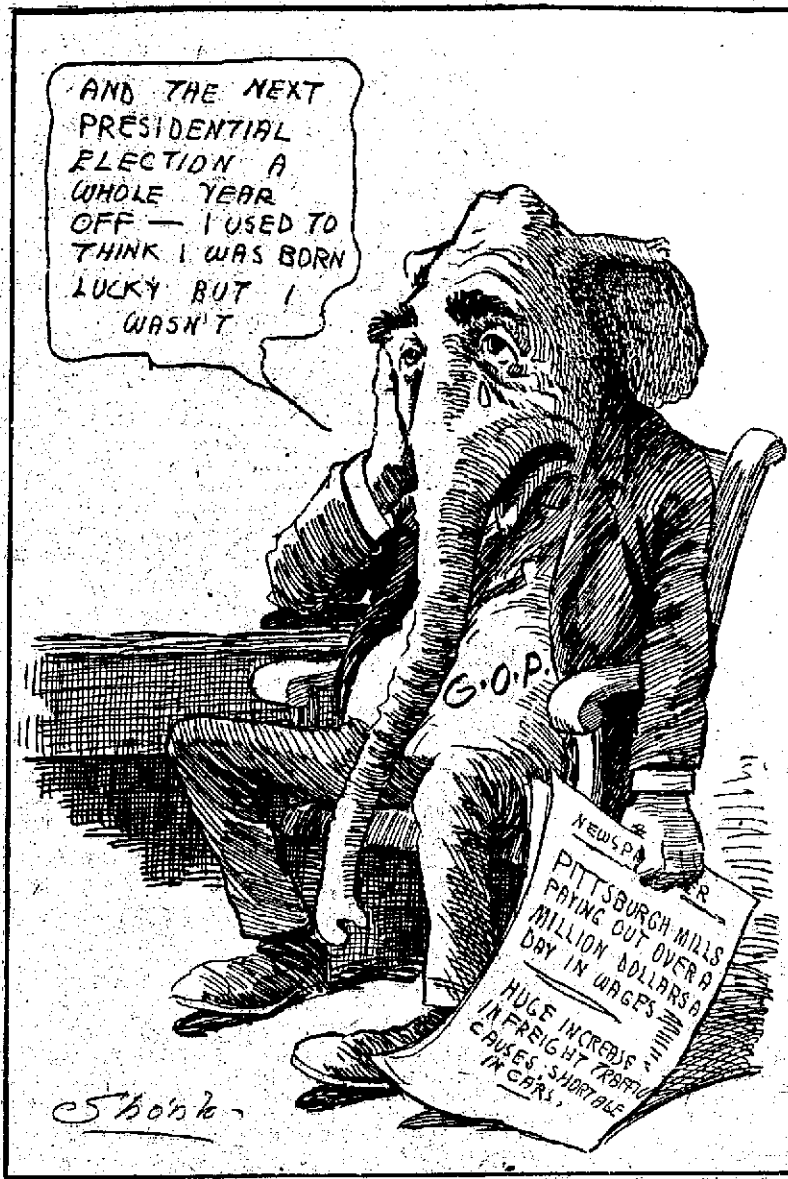

Immigration from southern Europe will probably continue to predominate and will probably increase in volume. Italy, Austria-Hungary, Russia, and the Balkan states are not as efficiently organized as Germany, England, and France. They are not expected in state or socialized effort. These are peasant countries with but few large cities. A great majority of the people live upon the land, much of which has been swept over and from which the horses and live stock and growing crops have been requisitioned, so that it will be almost impossible to re-establish agriculture for many years to come. Hope in these countries will be at a low ebb. A large part of the able-bodied population will be gone. Already in many sections only old women and children remain. There will undoubtedly be a heavy immigration from these countries.

The immigration of women and children will also undoubtedly reach large proportions. This change is already manifest. They, too, will be assisted to come. Not by foreign governments seeking to keep their undesirable, but by relatives in this country who send money, who write about conditions in America, who lure old neighbors by stories of high wages, improved social and political conditions, by tales of achievement on the part of their children, and who advance the cost of transportation and sufficient "show money" to enable the lion to pass the immigration inspector.—From "Immigration after the War," by Frederic C. Howe, in the November Scribner.

Glancing over exchanges in this part of the country we notice there seems to be an epidemic of small robberies. Waverly, Jackson, Ironton, Oak Hill and other places have suffered. Portsmouth may be next on the list and it would be a good idea for extra precaution to be taken. Suspicious characters must give an account of themselves or be chased out of town.

Two policemen brought disgrace upon themselves and lost their jobs because of horse play, misnamed a joke. It again demonstrates that danger lurks in a certain kind of a "joke."

MORE BAD NEWS.

THE LENGTH OF LIFE.

(Pittsburgh Dispatch.)

There is material for sober reflection in the statement of Dr. Victor C. Vaughn, former president of the American Medical Association, to the effect that statistics he has studied lead him to the conclusion that the number of men who reach the age around forty years is increasing rapidly, while the number who reach the age of fifty to sixty years is just as rapidly diminishing in proportion to the whole number.

There is something in this condition which is not as it should be. The man who has successfully striven through the competitive years to a period of leisure ought to be from every viewpoint, the most valuable figure in the local and general life of the nation. It is disappointing if he is not surviving to fulfill this function and statistics indicate he is not. Possibly he burned too much fuel during his days and nights of struggle. Elderly men are said by the doctor to be falling too rapidly beneath the burden of what are known as the diseases of maturity.

This condition, added to the further allegation by Dr. Vaughn, that the average length of life in the United States has been increased ten years since 1880, is rapidly enlarging our comparatively youthful population. This ten years' increase is not the addition of that much time to the ordinary man's life, but is the saving of the lives of children who, under former conditions, would have died of preventable diseases.

There is no denying the fact that in the Sixth congressional district Scioto county is by far the most potent county. In the new Tenth, to which it is proposed to shift us, we will be but a negligible quantity. We will be thrown in with counties who are imbued with jealousies and hatreds of this county, and it will be a long, long way before our importance is recognized. Why then should any level-headed citizen, regardless of personal political beliefs, favor a change? Why not stay where we are, where we count for something, where we will not be a cipher in the selection of candidates? Think it over, Mr. Vyrer.

Henry Cline, star orator of the G. O. P., is entitled to a place in the front rank of humorists. He has the hardihood to insist that Frick is responsible for that bursted reservoir in the face of the fact that Frick is the one man in Portsmouth who has all along insisted that the reservoir was not built according to specifications, and who expressed the fear that owing to bad work just such a catastrophe as happened would result.

There will be more than half a dozen ballots to vote at the coming election, and the average voter will have his hands full. In addition to the regular ballots there will be several constitutional amendments and two referendum propositions. Later The Times will take up these questions and explain them and the form in which they are submitted, for the information of voters.

German submarines have been remarkably inactive of late. Maybe it is the calm before the storm.

The most attractive thing in Maysville is a seat in the city council. At least we would judge so from the fact that almost every able-bodied man in the city is a candidate for council.

With contractors advertising for help it looks as though everything ought to be booming in Portsmouth. There is work here for every one, and there is no excuse for being idle.

Like McClure has given his opinion of our mayor's long sentences. Probably the mayor's opinion of Luke's column would be just as interesting and probably more to the point.

NEW-YORK-DAY-BY-DAY.

O. O. MCINTYRE.

New York, Oct. 16.—Henry W. Blossom, who writes books and lyrics for comic operas, is not temperamental but is quite impatient at any delay. The other day he went into his bank in the Times Square district to transact some business and found a long line in front of the teller's window.

He took his place at the end of the line and shuffled around on one foot and then on the other. Finally he became impatient and sought out the cashier in his cage.

"You shouldn't have lines like this," he said with a shade of sarcasm, "lines are a bother."

And now listen—here comes the cashier—the cashier replied: "How about lines in front of theatres, Mr. Blossom?"

Blossom gulped several times and walked right away from there.

Speaking of names there is a quiet boarding house in Gramercy Park called The Noyes.

The Subway Mob is clamoring: "Woof! Woof!" The suburban travelers who give an imitation of a sardine in repose twice a day—going to and from—want a pamphlet newspaper. They are writing to the regular newspapers about it. They say the ordinary New York newspapers on account of the cramped condition in the subway trains are too unwieldy to hold.

"They want a pamphlet that can be easily handled in the congested space. They say the only thing available for them to read is going to and from work. It is hard to turn a page without poking a neighbor in the eye. It is sometimes a dangerous thing to do."

The statement by Banker Warren of New York, that the allies really got the half billion from Wall Street long ago is reminding of a story that Joe Weber used to tell about the bartender who said to his employer:

"Is McGinly good for a drink?"

"Has he had it?"

"He has."

"He is."

Al Davis, the tango palace habitue, is again in the limelight through his suit against the mother of Eugenia Kelly. The girl is soon to become the sole possessor of one million exquisite dollars. A morning paper printed that the couple was ordered out of a prominent cafe the other night.

The next day Eugenia called in the "sob squad" from Park Row and told them how cruel New York was to her. Everybody from her point of view was picking on her and staying up nights figuring up how they could make her unhappy—the poor, poor child.

Little did she know how fame flies. That same day a copy-reader from Kansas City landed a job on an evening paper. He answered a phone and a reporter told him he had a little more information about Eugenia Kelly, "Eugenia Kelly," said the newcomer, "who the blazes is she?"

When is a hen unphibious? For answering the Solomon-fuzzing question Wallie Dohbs, the official pig exterminator of Cedar Grove, N. J., has been awarded a pewter loving cup. At the Cedar Grove Poultry Convention the other day, Wallie shifted his quid of navy from the right to the left cheek and aiming a nicotine 42 centimetre at the cuspidor told exactly how it happened.

One of his hens hatched a setting of duck eggs. When the ducks started for the pond the hen followed. She dapped her wings at the brink dubiously but when her ducklings slid in gracefully she dived a la Annette Kolleman and swam off gracefully. She was just that cute.

Autumn In The Country

Orchards red with apples,
Woods aglow with gold,
Barns and cellars holding
All that they can hold,
Cider presses going,
Sausage making near—
Oh, autumn in the country
Is the gladdest time of year!

Sky all soft and hazy,
Perfect dream of peace,
Winds all sweet and lazy,
Southward sailing geese,
In every heart the feeling
Which thankfulness evokes—
The good Lord seems revealing
His love for country folks.

Fodder shocks by thousands
Touting on the fields,
Till of work accomplished
And of goodly yields;
Make you think of armies
Not of war and blood,
Mighty armies gathered
For the common good.

Apperites grow keener,
(More of 'em' to do),
Steps grow more elastic,
Eyes grow brighter, too;
Roads just right for driving
Moonlight nights, my dear—
Oh, autumn in the country
Is the gladdest time of year!

—Kansas City Star.

Needed Strength

"This is the first time you have been to prayer meeting in a long time," said the pastor of a colored congregation.

"I had to come," replied Mr. Erasmus Pukley. "I needs strengthin'. I've got a job of whitewashin' a chicken coop an' buildin' a fence around a watermelon patch."

Going Down

The Missouri pastor looked over his glasses and shook his uncut locks.

"Carrying out my original declaration," he said, "I am about to call the names of those persons who are now asleep in this congregation. John Stackpole?"

There was no response.

"John Stackpole?"

The stout man stirred again.

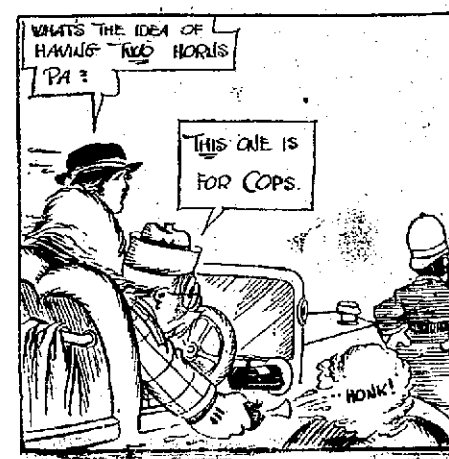

"Be down in a minute," he drowsily called, "Keep things hot for me."

The pastor's voice rang out: "You're going down, all right. John Stackpole," he roared, "and things will be kept very, very hot for you! Let us now sing the ninety-ninth hymn."—Cleveland Plain Dealer.

New Stars.

Many questions have been asked in regard to the probable fate of new stars, after they have ceased to attract special attention. It has been shown that such stars which have appeared in recent years have been converted into nebulae, and later, in many cases, into extremely faint stars of apparently normal condition.

Time to End Frivolity.

Serious thoughts, grave and great purposes, concern for permanent values, are more truly the mark of matured manhood and womanhood than a childish eagerness for toys and pleasures. Frivolity is essential immaturity.

TOBACCO CROP WILL EXCEED 50,000 POUNDS

J. C. Bierley, who owns what is said to be the finest farm in Lewis county, Ky., is here visiting his brother, H. A. Bierley, and his son, Charles Bierley, of Hutchins street. Mr. Bierley's farm contains 1,000 acres.

Mr. Bierley is a prominent tobacco grower. He stated Friday that his tobacco crop, this year would be in excess of 50,000 pounds. His farm is located at Carre, Ky., and overlooks the Ohio river. Mr. Bierley, who also raises some of the finest cattle in this section, at times employs 15 men on his excellently cultivated farm.

SQUIRREL SEASON ENDS OCTOBER 20

Deputy Game Warden Harry Ball stated Saturday that the squirrel law would be out on October 20. A report has been current that the season closed October 15.

THE BROTHERHOOD CLASS FOR MEN

The smallest attendance we have ever had since the organization of the Brotherhood—that was the record we achieved last Sunday morning.

The Korn Carnival was responsible for the slump of course, and this fact affords us some consolation. As the K. K. has been such a valuable factor in the community life that perhaps it is worth even the sacrifice of one Sunday's attendance at the Brotherhood! But let us get right back into harness and weigh in with a better than average attendance tomorrow. The lesson will deal with the reign of Solomon the Magnificent, and will be one of the most interesting in the series. The members are requested to read chapters nine to eleven in the first book of Kings in preparation. The class meets at nine o'clock every Sunday morning in the office of the rector of St. Paul's church, at the corner of Fourth and Court streets, and all men are made heartily welcome.

Mushroom Hunting Dangers.

The advantage of rattlesnake hunting over mushroom hunting seems to be that you know the snake is poisonous. As near as can be made out there seems to be one sure way of telling the character of your find, and that was described by a foreigner who asked if gathering mushrooms was not risky. "All right, most every day, somebody dies, then we not eat for a week."

Caused by Overheating.

Blowholes and pinholes in castings are caused by overheating the metal while melting. Pinholes are nothing but small blowholes.

Wife's Ingratitude.

"All day efforts to be useful around home came to naught," wailed an Atchison woman. "The other day I entered my head to do the family washing. But because I put tea towels in the washing machine with white clothes, and later put colored clothes with white clothes, and still later washed clothes with water I took from the washing machine after the washing was done, my wife ordered me to leave the premises."—Kansas City Star.

Religion and Business.

Uncle Sam (who was asked to lead in prayer)—Oh, Lord! prepare us all to die; so that when that dread moment arrives we kin calmly say, "Oh, death! what is thy victory?" And, oh, Lord, if our any present here tonight that are not prepared to die, give them, we beseech thee, around to ruin 74, at de American Eagle hotel, what I am stoppin' as de general agent of de Coontown Life Insurance company!—Life.

Belief In God

The evening services at St. Paul's church have been attended by comparatively large congregations during the past few weeks, to a notable extent by men who have been attracted by the plain, straightforward manner in which the rector has dealt with the interesting topics announced for discussion. There should be a greatly increased number present at the service on Friday night when the rector will preach a sermon on "The Consequences of Belief in God." These evening services at the old ranch church at the corner of Fourth and Court streets are always bright and interesting and if you have never attended one of these you are cordially invited to make a beginning tomorrow. HOW BULGARIANS TRANSPORT THEIR AMMUNITION AND SUPPLIES

Bulgarian transport and its convoy of infantrymen near the Serbian border.

Owing to the lack of railroads, Bulgaria employs the rather ancient method of transporting ammunition and supplies shown in the picture. Transporters like this have been very busy during the past few weeks moving munitions and other supplies to the Bulgarian frontier, where troops of Czar Ferdinand are in readiness to strike.
